About the Company:

Stratos Solutions (www.stratossolutions.com) implements innovative tax structuring and recovery solutions to the top 1000 companies in Canada. Utilizing state of the art data mining models coupled with leading edge tax and accounting solutions we provide clients to recover tax and invoice overpayments and credits plus strategic planning which lowers future tax and expense costs.

Want to grow your skills? Expand your knowledge? At Stratos, we're committed to helping that happen.

We are, first and foremost; well informed business advisors, not simply tax consultants. We serve a broad range of clients of all sizes, from individual taxpayers to large corporations across all sectors of the economy, in all regions of the country, and internationally. Stratos's strategy recognizes the importance of minimizing tax cost and confusion; as such, we are committed to offering our clients comprehensive, industry specific solutions to meet complex business challenges.

The tax group works with our clients to identify their key tax issues, make appropriate recommendations, and look for value added opportunities. Our fast-paced, tax group is .friendly, dynamic, agile and innovative. You will work with bright, intelligent and forward thinking people on challenging assignments. You will have the opportunity to further develop and utilize your skill set while cultivating your creativity and business savvy. You will be part of a growing team of professionals striving for continued excellence in an ever-changing environment.

The Commodity Tax practice of Stratos is a rapidly growing area of and provides a dynamic work environment in which initiative and creativity are strongly encouraged.

As a member of our team, your initial focus will be on obtaining a general knowledge of Canadian commodity taxes and using our SDI technology, i.e., federal Goods and Services Tax (including the Harmonized Sales Tax), provincial retail sales taxes, Customs duties, fuel taxes, excise levies, etc. You will work closely with our principals.
